

Build your own model Wanamaker!

1. Print this PDF on 8.5"x11" paper. The sturdier the paper, the better. Make sure "do not scale" is checked when printing
2. Once printed, cut the pieces out on the dotted lines
3. After you have the pieces, cut on the solid lines
4. Make note of the two longer facade pieces. The longer piece with an entrance is the back
5. Assemble the walls except for the back. The roof cuts on the small facades should open to the right
6. Slide on the roof
7. Assemble the backpiece last
8. Admire your work! Feel free to share on social and tag us @jkrparchitects
